DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because it is written in claim language. Correction is required. See MPEP § 608.01(b).

Allowable Subject Matter

3. Claims 1,2,6-8 and 10-15 are allowed.

Response to Arguments

4. Applicant's arguments, see pages 7-11, filed 11/26/03, with respect to claims 1,2,6,7,8 and 11 have been fully considered and are persuasive. The rejection of these claims has been withdrawn.
